## Trends from the Trenches (Continued)

- Records management
- Faceted search
- Metadata and taxonomy management
- Document-centric workflow

## Xavor's SharePoint Migration Platform - Roadmap

### Source Environment

### Destination Environments

Current Version

**"Green field" (no SharePoint, no big ECM):** these organizations are prime candidates to deploy SharePoint 2010 as their core ECM system

**"Brown field" (MOSS or WSS, but no big ECM):** these organizations are prime candidates to rip and replace (i.e., build a "from scratch" SharePoint 2010 deployment as core ECM)

**SharePoint 2010 On-Premise**

Q1'2012 Launch

**Big ECM already in place:** these organizations will overwhelmingly opt) for SharePoint — ECM coexistence

**Social Software already in place:** SharePoint & Social Software coexistence

**Office 365 SharePoint Cloud Version**

**(Releasing on October 3 – SharePoint Conference Anaheim)**

## Xavor Migration Platform Differentiator

*..just wanted to say how impressed I have been with your company's responses and work throughout this whole issue. Many thanks for all your hard work!*

*-Peter*
